DETAILED ACTION

1. This Office Action is responding to the Amendment received on 01/25/06.
2. Claims 1, 4-25, 28-41 and 48-50 are pending.
3. Claims 48-50 are newly added claims.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 4-17, 25, and 28-35 are drawn to data protection, classified in class 713, subclass 193.
 - II. Claims 18-21 are drawn to secure communication, classified in class 380, subclass 259.
 - III. Claims 22-24, and 48-50 are drawn to Message authentication, classified in class 713, subclass 170.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination II has

Art Unit: 2135

separate utility such as to protect the communication key to set up a secure communication link, and subcombination III is to create a Message Authentication Code (MAC) to authentication the encryption secret key. See MPEP § 806.05(d).

6. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Linh LD Son whose telephone number is 571-272-3856. The examiner can normally be reached on 9-6 (M-F).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on 571-272-3859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
